CAMPBELL HALL/STUDENT SERVICES: With offices for the Educational Opportunity Program and Career Development, it’s almost one-stop shopping for student services.

CAMPUS CENTER: This 2004 building is the heart of the campus with a rooftop garden, places to eat (including Starbucks), bowling alleys, a game room, the bookstore, student organization offices, and the Dean of Student Services office.

CENTRAL AVENUE BUILDING: Home to the School of Management and the 160,000-volume Robert W. Van Houten Library.

COLTON HALL: Department of Civil Engineering’s labs, offices and classrooms, plus a super-sophisticated GPS antenna on the roof.

CULLIMORE HALL: College of Science and Liberal Arts’ classrooms and offices; the departments of mathematics, humanities, and history.

CYPRESS/REDWOOD RESIDENCE HALLS: Home to 700 freshmen and sophomores with double rooms (Redwood), suites (Cypress) and high-speed Internet access.

EBERHARDT HALL/ALUMNI CENTER: Built in 1857, this registered historic site serves as the alumni center.

ECE BUILDING: Offices, classrooms, and labs for the Department of Electrical and Computer Engineering.

ENTERPRISE DEVELOPMENT CENTERS: Houses start-up companies as part of NJIT’s business incubator program.

ESTELLE AND ZOOM FLEISHER ATHLETIC CENTER: Swim (or learn to kayak) in the pool, swing a racquet, lift weights, get a workout, practice or compete on varsity teams, intramural teams and physical education classes. There’s also seating for 1,000 and a walking track.

MECHANICAL ENGINEERING CENTER: Mechanical Engineering Department, plus one of the largest site-built solar energy structures in the Northeast.

MICROELECTRONICS CENTER: Sophisticated research technologies reside here, allowing researchers to work on micro-engineered devices such as integrated circuits and silicon chips.

SCHOOL OF ARCHITECTURE: Nicknamed “lantern-on-a-hill” for the way it glows when students pull all-nighters.

STUDENT MALL/PARKING DECK: Head to the mall for lots of your practical needs—computer lab, bursar, registrar and financial aid, along with parking for 1,300 vehicles with a high-tech security system.

THE GREEN: It lives up to its name as a grass-filled spot where students gather for volleyball, Frisbee, naps, conversation, relaxation and outdoor concerts and movies.

TIERNAN HALL: This is for transportation, research facilities and labs equipped for studying leading transportation projects, membrane separations, biotechnology, and more.

VAN HOUTEN LIBRARY: Includes more than 160,000 volumes, 1,000 hard-copy journals, digital access to more than 10,000 journals, plus plenty of study areas and lounges.

YORK CENTER FOR ENVIRONMENTAL ENGINEERING AND SCIENCE: The nation’s largest university-based hazardous waste management facility; the center conducts important research in pollution prevention and remediation.
